T3 MOTION CELEBRATES 1ST ANNIVERSARY OF T3 SERIES VEHICLE AT I.A.C.P. 2007

***T3 MOTION'S T3 SERIES ELECTRIC PERSONAL MOBILITY VEHICLE
ORIGINALLY UNVEILED AT I.A.C.P. 2006 BOSTON***

COSTA MESA, CA (October 5, 2007) - T3 Motion, Inc., proudly celebrates the first anniversary of their flagship vehicle, the T3 Series, with their return to the International Association of Chiefs of Police (IACP) convention in New Orleans, LA. 2006's IACP show in Boston, MA marked the product launch of the T3 Series to the influential law enforcement and government markets.

T3 Series by T3 Motion, Inc.

2007 is the 114th annual conference for IACP and over 14,000 attendees are expected come from around the world to meet 750 different exhibitors during the massive three-day show. IACP is the world's oldest and largest nonprofit membership organization of police executives, with over 20,000 members in over 100 different countries. IACP's leadership consists of the operating chief executives of international, federal, state and local agencies of all sizes.

Appearing at Booth #803, the all-electric T3 Series is purpose-built for the law enforcement and security markets and produces zero gas emissions and can have an unlimited range due to its field-swappable batteries. The zero-degree turning radius makes the T3 extremely agile for both indoor and outdoor applications.

"T3 Motion is very excited to return to such an important show like IACP," said T3 Motion, Inc. President Neil Brooker. "A year ago at IACP Boston, we launched the T3 Series vehicle and, since then, the response has been off-the-charts. What agencies continue to discover is the T3 is ideal for a huge range of daily outdoor and indoor law enforcement applications. For departments, the T3 can save on operating costs and emissions because it's an all-electric vehicle."

About the T3 Series:

Reaching speeds over 25 m.p.h. and designed with the input of law enforcement officials and security industry professionals, the T3 Series features a zero-degree turning radius and compact design, perfect for maneuvering through crowds and tight spaces. Also unique to the T3 is the most user-friendly intuitive operation of its kind giving the rider a sense of superior stability.

The quiet environmentally-friendly zero gas emission vehicles include an integrated LED lighting system and an incomparable low cost of operation – running for less than 10 cents per day and never requiring any down time due to the T3's two re-chargeable, lightweight batteries that can be easily swapped out while in use for continual employment and an unlimited range.

T3 Series Features:

- High-performance vehicle with a zero-degree turning radius for improved maneuverability in crowds and tight spaces
- Two rechargeable and interchangeable lightweight batteries power modules for constant use without down time
- Capable of reaching speeds up to 25 m.p.h. for the quickest response possible without officer personnel fatigue
- An instinctive vehicle with easy-to-operate controls and responsive steering that allow officers security personnel to focus on response to the situation
- An 9-inch raised platform providing a superior vantage point but still allowing interaction with the community
- Robust cargo capacity of 450 pounds (rider + equipment) includes ability to tow personnel and equipment/cargo trailers.

Additional T3 Series Features Specific to Law Enforcement and Security:

- Integrated LED lighting system
- Fully-compliant headlights, brake lights and running lights
- Audible sirens
- Lockable glove box for storage
- Optional GPS enabled tracking system

About T3 Motion:

T3 Motion, Inc. revolutionized the world of personal mobility with the introduction of their flagship T3 Series law enforcement vehicles at the International Association of Chiefs of Police conference held in October 2006. Headquartered in Orange County, California, T3 Motion, Inc. is dedicated to raising the bar on environmental standards and law enforcement and security capabilities in personal mobility technology.
