T3 MOTION CELEBRATES SECOND ANNIVERSARY WITH LAUNCH OF CT SERIES MICRO CAR AT IACP 2008

***T3 MOTION CONTINUES TO REVOLUTIONIZE PROFESSIONAL
MOBILITY THROUGH COST-EFFECTIVE ZERO GAS EMISSION VEHICLES***

Costa Mesa, CA (November 15, 2008) - T3 Motion, Inc. celebrated the second anniversary of their iconic flagship vehicle, the T3 Series ESV, to an audience of over 16,000 attendees at this year's International Association of Chiefs of Police (I.A.C.P.) expo in San Diego, CA. Since the launch of the T3 Series at the Boston I.A.C.P. show in October 2006, over 400 law enforcement, security, and government agencies throughout the U.S., Canada, Mexico, and the Caribbean have deployed the revolutionary three-wheeled electric personal mobility vehicle. T3 Series customers have been utilizing the T3 in daily shifts at airports, campuses, business districts, retail/lifestyle centers, facilities, and parks.

CT Series Micro Car

T3 Series ESV

Joining the T3 Series in the T3 Motion, Inc. booth this year was the brand-new electric CT Series Micro Car targeted at the Parking Enforcement and Patrol markets. Capitalizing on T3 Motion, Inc.'s core competencies in power management and drive systems, the company introduced the four-wheel electric CT Series Micro Car (L.S.V./N.E.V.). Using the market penetration driven by the successful introduction of T3 Series personal mobility vehicles, T3 Motion, Inc. is using existing and natural sales channels in the law enforcement, security, and government/military sectors. T3 Motion, Inc. is re-designing, branding, marketing and distributing the CT Series to increase market share, to create additional lines of products, and expand overall T3 Motion brand awareness through our exclusive agreement with manufacturing partner CT & T.

"I.A.C.P. Boston 2006 was the official launch of the T3 Series and, to see how far we've come in such a short period of time, is amazing," said Brian Buccella, T3 Motion, Inc. Vice President of Sales and Marketing. "We wanted to use this year's show in San Diego to further showcase T3 Motion's progressive product offerings with the launch the CT Series Micro Car. We feel it's the best definition of a N.E.V. yet. It's really more a car that just happens to be powered by electricity. In this era of reducing operating costs, the CT Series is an ideal solution for applications like parking enforcement and security patrols."

About the CT Series Micro Car:

Capable of speeds up to 35 m.p.h., the fully-electric four-wheel CT Series Micro Car L.S.V./N.E.V. is designed for Parking Enforcement, Campus Safety, and Retail/Lifestyle Center Public Safety applications. The CT Series has four-wheel disc brakes, four-wheel independent suspension, and a range up to 75 miles (with Li-Poly Power Modules). Accessories include Air Bags, Emergency Lighting, automated License Plate Recognition (ALPR), mobile Digital Video Recorders (MDVR), and e-Chalking systems.

Proving the clean technology is not only good for the environment, but good for the bottom line, the CT Series can provide cost-effective solutions to a broad range of professional market applications. For example, operating on average for less than a dollar a day in recharge costs, the zero gas emission CT Series can provide an even greater return on Parking Enforcement fees than petroleum-powered alternatives.

CT Series Micro Car Features:

- Clean and green technology
- Zero gas emissions
- Top speed of 35 m.p.h.
- Regenerative braking to maximize range possibilities
- Range options include 35 mile, 45 mile and 75 miles
- Recharge duration = 8 hours maximum
- Windshield wipers, turn indicators, speedometer, odometer, and charge indicator
- 12' turning radius
- Crash-tested to 30 m.p.h. (front and rear)

Additional CT Series Accessories Specific to Law Enforcement and Security:

- Emergency Lights
- Siren/P.A.
- ALPR system
- e-Chalking system
- MDVR system

About the T3 Series:

Reaching speeds up to 25 m.p.h. and designed with the input of law enforcement and security industry professionals, the T3 Series feature a zero-degree turning radius and compact design—perfect for maneuvering through crowds and tight spaces. Also unique to the T3 Series is the most user-friendly intuitive operation of its kind, giving the rider a sense of superior stability.

The quiet environmentally-friendly zero gas emission vehicles include an integrated LED lighting system and an incomparable low cost of operation—running for less than 10 cents per day and never requiring any down time due to the T3's two re-chargeable, lightweight batteries that can be easily swapped out while in-use for continual deployment and an unlimited range.

T3 Series Features:

- High-performance vehicle with a zero-degree turning radius for improved maneuverability in crowds and tight spaces
- Two rechargeable and interchangeable lightweight power modules for constant use without down time
- Capable of reaching speeds up to 25 m.p.h. for the quickest response possible without officer or personnel fatigue
- An instinctive vehicle with easy-to-operate controls and responsive steering that allows officers and security personnel to focus on response to the situation
- A 9-inch raised platform providing a superior vantage point but still allowing for interaction with the community
- Robust cargo capacity of 450 pounds (rider + equipment) includes the ability to tow personnel and equipment/cargo trailers

Additional T3 Series Features Specific to Law Enforcement and Security:

- Integrated LED lighting system
- Fully-compliant headlights, brake lights and running lights
- Audible siren and yelp horn
- Lockable glove box for storage
- Optional GPS-enabled tracking system
- Optional on-board video camera system

About T3 Motion:

T3 Motion, Inc. revolutionized the world of personal mobility with the introduction of their flagship T3 Series law enforcement vehicles at the International Association of Chiefs of Police conference held in October 2006. Headquartered in Orange County, California, T3 Motion, Inc. is dedicated to raising the bar on environmental standards and law enforcement and security capabilities in personal mobility technology. For more information on T3 Motion, Inc. and the company's signature T3 Series line of electric personal mobility vehicles and the electric CT Series Micro Car, visit www.t3motion.com or call (714) 619-3600.
