**T3 Patrollers** — No matter what year your vehicles were purchased they can be refurbished quickly and brought up to current specifications. Thanks to the T3 Patroller's modular subsystems design, refurbishments are an easy and straight forward process that can extend the life and value of the vehicle. T3 Motion customers have documented T3 Patrollers with over **88,000 miles** that are still in service and performing just as good as a new 2018 model.

If purchased separately, the T3 Patroller Refurbishment Parts would total over \$9,000 (not including labor costs and extended warranty value). The Elite T3 Patroller Refurbishment Program excludes damaged Front Shaft and/or Front Fork assemblies (contact [Service@T3Motion.com](mailto:Service@T3Motion.com) for pricing).

\*Warranty terms and conditions are subject to change. Warranty applies to electrical systems and electrical parts only. Warranty becomes effective upon date of completed refurbishment.
