4 new motor bikes for Al Ain Community Policing Branch

Amongst public and tourists admiration Al Ain Community Policing Branch drove on a road show four newly introduced environment-friendly and electrically operated motor bikes. They were part of 13 motor bikes being inducted for community police in Abu Dhabi. Two bikes are deployed at Mabzarah Park and other two at the City Center.

According to Colonel Hamad Ajlan Al Amyami, Director of Al Ain Police Directorate this step was intended to enhance communication with community members in response to the directives of HH Lt. General Saif bin Zayed Al Nahyan, Deputy Prime Minister and Minister of Interior.

These new motor bikes could present their services in narrow places and public parks. This number would be increased in the future.

ADP GHQ has recently deployed 12 new motor bikes with special specifications at Al Khaleej Al Arabi Corniche, Khalidia and public parks in the Capital.
